Erosion and Sediment Control Permit Application

Applicant Name: _____ Owner or Contractor

Telephone: _____ Email Address: _____

Address: _____

Building Permit Number: _____

Location of Construction: _____

Estimated Site Construction Area Square Footage: _____

An Erosion and Sediment Control Permit for residential dwellings and other small land disturbance activity which disturbs five hundred (500) square feet or greater but less than ½ acre (21,780 square feet) shall be required. The Erosion and Sediment Control Permit shall include submittal of the **permit application, a site plan, and a fee of twenty-five dollars (\$25.00)**. For single family and duplex residential land disturbance, the site plan shall include a minimum of two trees to be planted according to requirements. The site plan shall also include Best Management Practices that are adequate and effective in controlling pollutants, to include sediment, on site. At a minimum, all sites are required to install a construction entrance and detail permanent stabilization. When construction is complete and the site is permanently stabilized, the site is required to remove all temporary BMPs.

I further understand that failure to comply with such requirements within three (3) working days following notice by the City of Foley could result in a "Stop Work Order" or a citation for violation of the City of Foley Environmental Permit Ordinance.

The applicant/owner/engineer is solely responsible for designing, constructing the improvements and planting the trees in accordance with all applicable codes, regulations, and ordinances, and the issuance of this permit in no way relieves the applicant/owner/engineer of this responsibility. The permit application must be accompanied by a construction best management practices plan, a tree survey, and a landscape plan that meets and/or exceeds the environmental permit ordinance requirements. The environmental permit shall also include a review fee of \$125.00.
