"Foley has worked hard to build a thriving and welcoming downtown, and we are disappointed to learn of the troubling business practices under investigation at Colt Grill. These actions do not reflect the values of our city or the standards we expect from those doing business in our community.

I want to thank our local police department for their professional response and continued commitment to keeping our community safe. The City is working closely with the local building owner to help address the situation with their tenant.

While this incident is unfortunate, it does not define us. Foley remains committed to supporting our business community, and we will continue to move forward together."

- Mayor Ralph Hellmich, City of Foley
