

Demolition Permit Application

Permit Number _____

Application is hereby made for demolition of a structure that requires the permit holder to remove all aspects of the structure. The material cannot be buried on site. The demolition and removal are to be conducted in a timely fashion and the lot graded to accommodate future building or development or stabilized to prevent erosion. The information which follows is made part of this application, in reliance upon which the Building Official is required to issue a building permit.

It is understood and agreed by this applicant that any error, misstatement or misrepresentation of material fact or expression of material fact, either with or without intention on the part of this applicant, such as might, or would, operate to cause a refusal of this application, or any material alteration or change in the accompanying plans, specifications or structure made subsequent to the issuance of a permit in accordance with this application, without the approval of the Building Official, shall constitute sufficient ground for the revocation of such permit.

Please note that in accordance with applicable sections of the currently adopted International Residential Code and International Building Code, a permit shall become invalid unless the work authorized by this permit is commenced within 180 days after its issuance, or if the work authorized by this permit is suspended or abandoned for a period of 180 days after the time the work is commenced. To close this permit an inspection is required. For an expired permit, applicants must submit a new application, pay associated fees and request an inspection.
