Proposed work for 25' side of building:

- Remove front metal façade
- Install approximately 25 feet of shed-type style metal awning
- Repair stucco and paint entire building
- Repair roof
- Remove shed expansion on rear of building
- Remove concrete block on original door location to create new entry and install store front entrance door
- Install awning on rear of building
- Add ADA parking in rear of building

Proposed work for 50' side of building:

- Remove metal facade from the front of the building
- Remove wooden structure in the back of the building
- Remove stucco to expose the building's original brickwork

- Evaluate, repair and repoint brick as necessary
- Install a flat metal awning the full length of the building
